

the Fall?ĊChew on ThisĊMilton's attempts to describe Paradise always fall short because the fallen medium he uses brings a lot of semantic baggage with it.ĊIn Eden, language is the perfect communicative tool; as we learn when Adam names the animals (Book 8), language somehow incorporates some aspect of the nature of what it names.<|end_of_text|>

Radon, a silent killer in homesĊDeKALB âĖĴ Many homeowners take precautions to protect themselves. They lock their doors at night, turn off and unplug appliances and regularly test their smoke detectors.ĊRadon isnâĖĴt something many homeowners consider a danger in their homes, but it could be harming them the most.ĊRadon is a colorless, odorless naturally occurring gas found in uranium in soil. The gas often seeps through cracks in a houseâĖĴs foundation or other areas exposed to soil. The health risks associated with radon are not immediate but rather a result of continuous exposure over a long period of time.ĊIf you have any technical difficulties, either with your username and password or with the payment options, please contact us by e-mail at firstname.lastname@example.org<|end_of_text|>

National Geographic is running a special series on population âĖĴ and who is leading the way on population estimates?ĊThough his tiny peephole gave him
