Communication on nuclear stress test

European Commission - MEMO/12/731

04/10/2012

Brussels, 4 October 2012

Communication on nuclear stress test

1. How many nuclear power plants (NPPs) were included in the stress tests and where are they located?

In the EU, the reactors are located in the following countries:

Belgium: 7 reactors (2 NPPs)

Bulgaria: 2 reactors (1 NPP)

Czech Republic: 6 reactors (2 NPPs)

Finland: 4 reactors (2 NPPs)

France: 58 reactors (19 NPPs)

Germany: 17 reactors (12 NPPs; out of these 4 NPPs with 8 reactors were shut down after Fukushima)

Hungary: 4 reactors (1 NPP)

Lithuania: 2 reactors under decommissioning (1 NPP)

The Netherlands:
